No Federal Election This Year Opinion Prov. Cons. Convention

According to D. W. Patterson, secretary of the Federal Constituency of Peace River, who arrived home on Tuesday from the Capital City, where he attended a convention of the Alberta Conservatives, there will be no federal election this year, at least that was the opinion. With regard to the date of the provincial election, there was considerable conflict of opinion. Some were of the view that the election will be held some time during July or September of this year.

Mr. Patterson further stated that there were over 300 delegates present, every constituency being represented.

There were six representatives from the Peace River, among whom were E. Y. Bregin of Clairmont, president of the Federal Constituency.

"All reports from the..." indicated that Premier Bennett is gaining strength in that part of Canada," said Mr. Patterson. This was in reference to the banking legislation and the resultant legislation following.

"It was pointed out at the convention," said Mr. Patterson, "that Canadian securities on Wall Street were increasing in value to a greater extent than American securities, indicating that Wall Street had greater faith in the stability of Canada than in the United States."

Both Mr. Patterson and Mr. Bregin were on the resolutions committee. The resolutions passed by the convention were left in a greater degree to the executive to form the basis of the Conservative provincial platform.

"The convention," said Mr. Patterson in summing up, "was most successful in every way."

The Grande Prairie branch of the Imperial Oil Company, which has a cheap tractor fuel is necessary to meet present-day conditions, has ample preparation to meet the anticipated demand for such fuel.

"That cheap fuel," said Wes Bentley, the local agent, "is distillate, which the Imperial Oil introduced into the Peace River country two years ago. It is now handled in every town, village and hamlet."

Mr. Bentley explained that light imperial tractor distillate can be used in any gasoline-burning engine, while heavy imperial tractor distillate can be used in any kerosene-burning engine.

He added: "Laboratory engineers are continually working on new products, improving and perfecting them, and today we have a tractor fuel second to none."

"The Imperial Oil Company feels that it has a duty to perform in the development of this country, and in order to do this, it must be able to provide the farmers, both of these tractor fuels are carried at all the company's warehouses."

Alta. Manager of Union Oil Sounds Optimistic Note

"Our business has steadily increased in spite of conditions," said the Alta. manager of the Union Oil Company for Alberta, who spent several days in the interests of his company.

Mr. Vennu said that the chief object of his visit was to discuss the need for a new tractor fuel made necessary by the economic situation which exists.

"The fact," said Mr. Vennu, "is that in the new tractor fuel something which will meet all the requirements of the modern farmer, a fuel which has been used have given him a more positive and efficient."

In addition the fuel is of such quality that it will insure a more efficient tractor. At other points at which this fuel has been used, it has been received, with great favor, and the patronage which the Union Oil has received in this district has been a most meritorious introduction of a satisfactory fuel at a lesser cost.

Mr. Vennu stated that road conditions would not permit his covering the territory in its entirety. However, he said, in phone communications with the Union dealers in the outlying districts we find a very optimistic note prevailing.

In answer to a question as to conditions in the outside, Mr. Vennu replied that in general merchants on the outside report a direct reflection of the upturn in the hog market.

He also mentioned that the B.C. train for Calgary, the company's headquarters for Alberta.

It is a dangerous pastime and several times there have been narrow escapes from drowning. Because of the risk the youngsters take, the police ask parents to help stop such dangerous play.

Liberals To Hold An Organization Meeting Soon

This will, of course, not be a nominating convention, but, no doubt, the meeting will make some arrangements to the calling of a nominating convention at a later date.

Mr. Rideout advises that further particulars and the date of the meeting is to be announced later. In the meantime he urges that all Liberals in every polling division make arrangements to have as large a representation as possible at the next election.

Mr. Rideout, prominent Liberal of Peace River, has been instructed by the Alberta Liberal executive to convey the organization meeting and is making arrangements to call the meeting.

Mr. Leighton, who is a grand nephew of the late Lord Leighton, president of the British Academy from 1878 to 1896, has been painting for years at Banff and through the Canadian Rockies. He is also head of the Institute of Technology and Art in connection with the University of Alberta. Some years ago through his paintings of the old windmills of Kent and Sussex he was largely responsible for the movement to retain and restore these historic landmarks. The Kananaskis Dude Ranch operated by Mrs. Bill Brewster, is well known throughout Canada and the United States and is situated in the beautiful valley of the Bow River, and is surrounded by the most magnificent of Canadian Rocky Mountain scenery.

LILLIPUTIAN PAGEBOY SEES LONDON

John Maguire, London's smallest pageboy, has been engaged by one of the large hotels. John, who is 14 years old, weighs only 50 pounds and is 3 feet 5 1/2 inches high. He stopped growing when he was nine years old and is being fed on a special diet. John is so small special gloves and suits had to be made for him. Here we see the little fellow with a six-foot hotel porter as he has his first glimpse of the British capital from the hotel roof.

ARSENAL WIPES OUT BITTER DEFEAT

Arsenal, one of the classiest football teams in the first division of the English League, was knocked out of the "Cup" in the quarter finals by Aston Villa, much to the regret of the Londoners. However, Arsenal players "got their own back" two weeks later when they kicked the Villa by 3 goals to 2. The two men engaged in a heading tussle in front of the Villa's goal are David Jack (left), Arsenal's inside right, and Blair, Villa's captain and right back.

"UMBRELLA" PLANE TESTED

A new type "umbrella" airplane, which takes off with a 100-foot run and lands safely inside a 25-foot circle, has been given successful tests at Curtiss-Wright airport, Chicago.

The plane has a 12-foot circular "spring" instead of standard monoplane construction, with ailerons encircling almost half the circumference of the "umbrella." It is powered with a 125-horsepower motor.

In repeated tests the plane dropped to earth at a 60-degree angle at a speed slower than a parachute. It glided speed on the take-off at 700 feet a minute and reached an air speed of 135 miles an hour.

Dwight Morrow, the test pilot, said the plane was more stable than standard types of craft and that a novice could be taught to fly it in a few hours.

USE SHIPS AS PRISONS

When men in Spain mention in the future that they have been on a cruise they may be met with suspicious glances. Some of Spain's new prisons are floating ones. Because of the overcrowded conditions of old prisons following enforcement of the new Vagrancy Act, the government has chartered a few ships and put the superfluous prisoners in them.

Canada sent 295 tons of honey to Holland last year, the other exporters being Russia, 227 tons; France, 260; Germany, 331; United States, 471; and Cuba, 2,453 tons.

ONE OF US TWO

By Ella Wheeler-Welch.

The day will dawn, when one of us shall barken.

In vain to bear a voice that has grown dumb.

And some fade, some pale, and shadows darken.

One of us two must sometime face existence.

And memories that but sharpen pain.

And then sweet days shall shine back.

Like dreams of summer days, in nights of rain.

One of us two, with tortured heart.

Shall read long-treasured letters each treasured token.

That speak of these love-crowned, delicious years.

One of us two shall find all light, all beauty.

All joy and earth, a tale for ever done.

Shall know henceforth that life means only duty.

O God! O God! have pity on that one.

Min-quickly touched— I mean, do you consider the sentiment "daisy"?

One viewpoint depends on your age, of course—unless you are one of those birds (rare now—a-days), an uncurable spinster.

One of those spinster married women has a romantic mind, marriage having cured her.

Yes, I know "spinster" is out of date, and is an unpleasant word, anyway; but I used it deliberately—"bachelorette" sounds too business like and suitable for the type of person I mean.

When more are sullen, moans, aloof, and there are no shadows, and no light to the room of deluges and dreadful night—he's mar, your beautiful living present, and be thankful. Then, when it is all over, do not sit down in self pity, listening for voices that he grow dumb and watching for feet that never come, and weeping over the past. Let the letters that really ought to have been destroyed ages ago (if not the originals) be the ones who read them for your eyes alone, and when you and he were considerably younger.

How do you know how much pain you are causing that other one by your useless and selfish grief? I used it deliberately—"bachelorette" sounds too business like and suitable for the type of person I mean.
